How to Join

To join us, visit www.csinet.org and select “Join CSI”. When asked about chapter, choose chapter 024 Puget Sound Chapter. You will be glad you did.

Why join CSI?

You should be in CSI if you're an architect, a specifier, a product representative, a contractor, or any other kind of construction professional, and you want to know more than your piece of a project. CSI members have an in-depth understanding of construction because what they know goes beyond their job. They spend time with professionals from other fields, and learn how they fit with the rest of the building team. They are experts in the process of identifying real world building product solutions, communicating those solutions in construction documents, and ensuring that all the members of the construction team are building the facility the owner wants and is paying for. Their employers benefit from their ability to see everyone's role in a project, and because CSI members can deliver on time and on budget.

For Employers

Employee membership in CSI benefits employers:

- Gain exposure to new business opportunities before they even hit the market
- Increase your company's visibility among potential clients and partners
- Utilize the knowledge your employees gain to get an edge on the competition
- Leadership training produces leaders to bring your company to the next level
- Opportunity to tap a network of professional contacts to turn to when you need help or information on a project or product
- Opportunity to be up-to-date on the latest trends in building and design
- Increase technical knowledge
- Certification programs are the criteria for demonstrating mastery of the construction language
- Chance to earn CEU and LU credits through professional development programs
- Development of leadership skills – organization, management, communication, budgeting, public speaking.

- 21 10 00 Water-Based Fire-Suppression Systems
- 21 20 00 Fire-Extinguishing Systems
- 21 30 00 Fire Pumps
- 21 40 00 Fire-Suppression Water Storage

Division 22 – Plumbing

- 22 10 00 Plumbing Piping and Pumps
- 22 30 00 Plumbing Equipment
- 22 40 00 Plumbing Fixtures
- 22 50 00 Pool and Fountain Plumbing Systems
- 22 60 00 Gas and Vacuum Systems for Laboratory and Healthcare Facilities

Division 23 – Heating, Ventilating, and Air-Conditioning (HVAC)

- 23 10 00 Facility Fuel Systems
- 23 20 00 HVAC Piping and Pumps
- 23 30 00 HVAC Air Distribution
- 23 40 00 HVAC Air Cleaning Devices
- 23 50 00 Central Heating Equipment
- 23 60 00 Central Cooling Equipment
- 23 70 00 Central HVAC Equipment
- 23 80 00 Decentralized HVAC Equipment

Division 25 – Integrated Automation

- 25 10 00 Integrated Automation Network Equipment
- 25 30 00 Integrated Automation Instrumentation and Terminal Devices
- 25 50 00 Integrated Automation Facility Controls
- 25 90 00 Integrated Automation Control Sequences

Division 26 – Electrical

- 26 10 00 Medium-Voltage Electrical Distribution
- 26 20 00 Low-Voltage Electrical Transmission
- 26 30 00 Facility Electrical Power Generating and Storing Equipment
- 26 40 00 Electrical and Cathodic Protection
- 26 50 00 Lighting

Division 27 – Communications

- 27 10 00 Structural Cabling
- 27 20 00 Data Communications
- 27 30 00 Voice Communications
- 27 40 00 Audio-Video Communications
- 27 50 00 Distributed Communications and Monitoring Systems
